

Joint Booth Hydropower

29th - 30th November 2018
Messezentrum Salzburg

Hydropower provides a high background of environment friendly power supply. To produce power as much as possible an exceptional technique is needed. Companies which provide such techniques combine innovation, economy and ecology.

The Concept:

We give companies the opportunity to present their developments and ideas, product and service upgrades or research developments.

The aim of the joint booth is to enable companies to promote their products and services and make it accessible to the public. Participating in the joint stand will make your presentation at RENEXPO® INTERHYDRO as easy as possible.

It is an attractive way of participating at a very low cost.

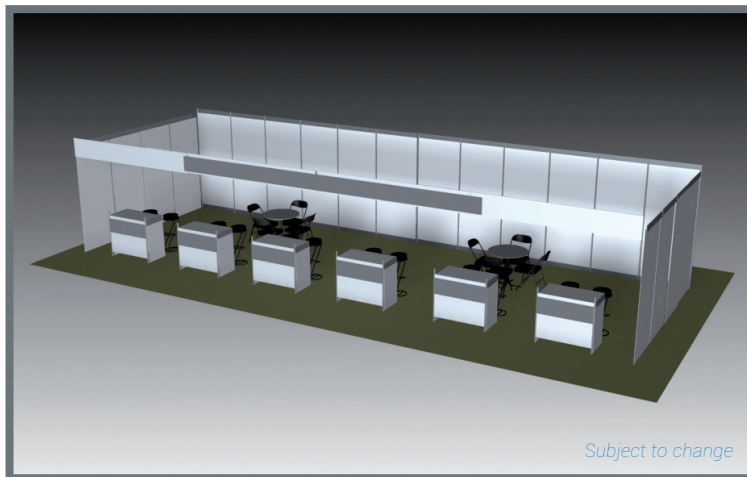

Your Benefits:

- » low cost and small expenditure
- » strong Austrian and international network and contact possibilities
- » opportunities to find investment partners
- » preferred consideration of guided exhibition tours and delegations

Accompanying conferences 2018*:

- » 2nd Eastern Europe Hydropower Forum
- » 1st Seminar „Invest in Balkan Region“
- » 2nd Africa Small Hydropower Forum & Match Making
- » Hydropower and electrical storage
- » 3rd European Association Meeting

*Subject to change
